CAPE TOWN MIGHTY GARDENERS

1. Core business

Cape Town Mighty Gardeners
Garden Care • Lawn Care • Landscaping • Clean-Ups

The startup can focus on residential homes, complexes, landlords, Airbnb properties, offices, and small commercial properties.

The idea is to start with services that require relatively manageable equipment and labour, then add specialist services as the business grows.

2. SERVICES

A. Regular Garden Maintenance

The recurring-income side of the business.

Lawn mowing
Lawn edging
Weeding
Garden tidying
Basic pruning
Plant-bed maintenance
Leaf/debris clearing
General garden care

Suggested structure:

Once-off
Weekly
Fortnightly
Monthly

Current Cape Town market information puts ordinary maintenance visits roughly in the R350–R1,100+ range, depending heavily on garden size and scope.

🌿 B. Lawn Care

Grass cutting
Lawn edging
Lawn clean-up
Basic lawn maintenance
Instant lawn installation

Published Cape Town figures put ordinary lawn-mowing visits around R400–R600 in many cases, with larger gardens costing more.

Compiled by Victoria Darik
02/10/2026

For instant lawn, the quote is per square metre, based on the measured area. One current Cape Town landscaping guide gives approximately R80–R160/m² for lawn installation, including preparation, although actual material choice and site preparation can change the price substantially.

🌳 *C. Tree & Hedge Services*

Start with:

Hedge trimming
Pruning
Small-tree trimming
Branch removal
Garden tree maintenance

For large/high-risk tree felling, I'd structure Cape Town Mighty Gardeners as the customer-facing company and use a qualified specialist/subcontractor rather than buying expensive specialist equipment immediately.

Current Cape Town market guides put tree felling broadly around R1,500–R8,000 per tree, depending on size, access and risk.

Hedge work is also commonly quoted separately; one current Cape Town guide gives roughly R45–R120 per linear metre for routine hedge trimming.

3. ONE-OFF GARDEN CLEAN-UPS

This should be one of your important services.

Mighty Garden Reset

For gardens that have been neglected or become overgrown:

Cut back overgrown vegetation
Grass cutting
Weed removal
Pruning
General garden clearing
Leaf/debris removal
Garden tidy-up
Refuse removal

Cape Town published estimates currently place once-off overgrown-garden clean-ups roughly around R1,500–R6,000+, depending on the size and amount of waste.

I'd therefore never advertise one flat clean-up price quote after seeing photos or doing a site assessment.

02/10/2026

4. SIMPLE START-UP PRICE STRUCTURE

Rather than trying to copy every competitor's pricing, Mighty Gardeners could initially have a simple quote system:

Service	Starting guideline
Small garden maintenance	R350–R500
Medium garden maintenance	R500–R800
Large garden	R800+
Lawn mowing	R400–R600+
Hedge trimming	From R650
Garden clean-up	From R1,200–R1,500
Overgrown garden	Site quotation
Garden refuse removal	Separate/add-on
Instant lawn	Per m² quotation
Landscaping	Site quotation
Tree work	Site quotation

These are **starting market guidelines, not fixed competitor prices**. Actual quotes should account for garden size, travel, labour, equipment, waste and materials. The published Cape Town ranges support a similar broad pricing structure.

5. MONTHLY PACKAGES

This is where I'd make the business more sustainable.

MIGHTY BASIC

From R1,400/month

- 2 visits
- Lawn maintenance
- Edging
- Basic garden tidy
- Weeding

Compiled by Victoria Darik
02/10/2026

MIGHTY CARE

From R2,000/month

- 4 visits
- Lawn mowing
- Edging
- Weeding
- Basic pruning
- Garden tidy
- Green-waste management

MIGHTY COMPLETE

From R3,000/month

- Weekly maintenance
- Lawn care
- Beds and borders
- Pruning
- Hedge maintenance
- Seasonal garden care
- Priority scheduling

These should remain **"from" prices** until you know the garden size. Current Cape Town sources show monthly contracts varying substantially, roughly from R1,400 to the R3,000–R4,500 range depending on frequency and property size.

OWNER / BUSINESS MANAGER (Peter)
↓
Gardening Team
↓
Regular Garden Maintenance
One-Off Clean-Ups
Lawn Services
Hedge & Pruning
Landscaping
↓
Specialist subcontractors when required

This means you don't need to own every piece of equipment or employ specialists immediately.

Mighty Gardeners doesn't need to start as a full landscaping company. Start with: **Garden maintenance → lawn care → clean-ups → hedges/pruning → landscaping → specialist tree work.**

That gives you a much more manageable startup structure while allowing the business to grow into a broader landscaping and garden-care company.

SOURCE OUT SECOND-HAND FUNCTIONING GARDENING MATERIAL

Peter Task

Essential garden maintenance tools include digging implements, pruning equipment, and watering accessories needed to keep lawns and flower beds healthy.

Core Hand Tools

- **Spade and Trowel:** Use a spade for edging beds and digging holes, and a hand trowel for delicate planting and transplanting.
- **Garden Hoe:** Use a traditional or stirrup hoe to chop weeds and cultivate topsoil without straining your back.
- **Garden Fork:** Use this to turn compost, aerate compacted dirt, and move organic material.
- **Leaf Rake:** Clear away fallen leaves and debris to keep lawns clean and prevent mold.

Pruning and Cutting Equipment

- **Secateurs (Pruning Shears):** Trim dead stems, harvest vegetables, and prune small branches to promote plant growth.
- **Hedge Shears:** Shape and maintain neat shrubbery and boxwood hedges.
- **Loppers or Bow Saws:** Cut thicker tree branches that exceed the capacity of standard hand pruners.

Watering and Irrigation

- **Garden Hose and Nozzle:** Connect a multi-pattern spray nozzle to cover large lawns and established flower beds.
- **Watering Can:** Deliver a gentle, targeted flow of water or liquid fertilizer to delicate seedlings and container plants.

Protective Gear and Accessories

- **Gardening Gloves:** Protect your skin from thorns, rough lumber, and blisters.
- **Kneeling Pads:** Reduce knee strain during extended periods of weeding or planting at ground level.
